

K2- FD

Classroom News

This term, the children are delving into the world of wonderful trees. They discover about the roles trees play in our daily lives. The children learn to play their part in loving the earth by brainstorming ways to reduce, reuse and recycle materials. By studying trees, the children are developing a greater appreciation for nature and a deeper sense of connection to the world around them.

Upcoming Events

- **3rd June:** Field trip
- **9th to 13th June:** Parents-Teachers Meeting (on-site meeting)
- **20th June:** Parents Day Celebration

Reminders

- **1st May:** School closure for Labour Day
- **12th May:** School closure for Vesak Day
- **6th June:** School closure for Teacher Professional Development

Easter Celebration

On 17th April, the children and their parents participated in the Little Moments Big Connections event, held in conjunction with the Easter celebrations. The theme is the 'Secret of the Watermelon'. The secret is in the colours of the watermelon, revealing God's salvation plan for mankind after sin entered the world through the disobedience of Adam and Eve. The dark seeds refers to the sin in us, the red signifies Jesus blood which offered forgiveness of sin (white rind). The gold coloured blossom points us to the promise of Heaven and the green refers to Christian growth. The children played station games related to the watermelon and did a craft of the various colours. They thoroughly enjoyed themselves!
